The Appeals Court last month followed the lead of the U.S. Supreme Court and upheld in Michigan the principle of oneman, one-vote apportionment in local government.

The federal high court ruled in favor of the principle earlier this year in a Texas case.

The 1966 state law requires apportionment of each county into from five to 35 equal-population, single - member districts, the number depending on the county population.

It requires compact, contiguous districts and calls on county reapportionment commissions to strive for square districts drawn as closely as possible along city, township and precinct lines.

The state law had been declared unconstitutional by the Michigan Supreme Court, based on earlier federal decisions, but was revived in the Court of Appeals after the U.S. high court ruled in the Texas case.

Teacher Wins **National Honor**

SANDWICH, III. (AP) - David E. Graf, honored by President Johnson as 1968 National Teacher of the Year, is a man with an uncommon dedication to helping children learn.

Graf. 51, is the coordinator of a diversified occupations program in Sandwich, a town of 5,000 about 60 miles west of Chicago. His pioneering efforts in this program, which places students in local businesses and industries for half a day, and his work with the mentally retarded, won his national recognition.

In ceremonies in Washington, Johnson told Graf the award was in "recognition of your gift to the nation and to those of us who want to see the teaching profession occupy the high place to which it is entitled.'

Robert Turney, Sandwich superintendent of schools, said Graf was instrumental in establishing a training and employment program fort he mentally retarded.

Valentin Muratov, third secretary to Russian Ambassador Dobrynin in Washington, spoke at Michigan Tech recently on invitation of student and faculty groups. The audience jammed the hall to see what a spokesman for the Soviet Union would say about its relationships with the United States.

There isn't much mystery about this, it is a hard party line that Muratov couldn't depart by one comma

The Soviet Union, he is quoted as saying, seeks to help young countries "get on their feet and protect them from new and old colonialism."

The history of the world since World War II gives the lie to this statement. Russia has captured the states on her eastern border and made them all subject to communist rule and, for the most part, to her control. Poland, Czechoslovakia, Hungary, Rumania, Yugoslavia (rebellious but communistic, Albania and Bulgaria. This is colonialism of a modern tyrannical type.

She played her own game in the Congo and in other emergent African nations and has an amazing, historic repudiation there as the new nations found nationalism a stronger force than communism.

She has made as much mischief in the Middle East as possible, supplying arms to Egypt and other Arab nations, egging them on to destroy Israel, the most progressive, valiant state in the Levant.

Muratov said that his country advocates withdrawal of foreign military bases and said that the United States "must remove its troops from Vietnam."

A few years ago when the shoe-banging Nikita Khrushchev was the head of the Russian government President Kennedy told Russia that it must remove its missiles from Cuba. That was a withdrawal not "advocated" by Russia.

As for our troops in Vietnam, we said they went there at the request of a "young country" to "get on their feet and protect them from new and old colonialism," namely conquest by Communist North Vietnam with arms supplied by Communist China and Communist

Russia.

from Jam Dam visited the Chamber of Commerce, the banks, the Escanaba Daily Press and radio stations WLST and WDBC in Escanaba on Tuesday asking support for a cause: The Future of Robinson's Committee.

They are workers at the Robinson plant at Jam Dam which burned last Saturday noon while most of its workers were attending services at the Seventh Day Adventist Church just across the valley of the Big Cedar River and in sight of the plant.

The young women are asking the Escanaba Area to contribute to a fund for the purchase of a fire engine to be stationed at the new factory that they hope Earl Robinson will build to replace the one destroyed by fire.

what kind of coffeemaker do you use?

It really doesn't matter.

Any coffeemaker can give you a good cup of coffee, providing you use a fine fresh coffee that is ground exactly right for your coffeemaker.

We've always known that the correct grind is important to coffee flavor.

That's why, years ago, we developed Custom-Grinding. That's why we don't have just one or two grinds but seven different grinds... to fit any coffeemaker, including electric percolators, of course, (Ask for medium-fine grind for electrics).

Custom-Grinding means a little extra work for us and a little extra time for you.

(It takes 15 seconds to grind a pound).

But what a difference in flavor those few seconds make.

You know, there's only one reason we insist on selling custom-ground bean coffees... WE CARE.

The May issue of the magazine says Getty, 75, and Hughes, 62, are followed by six other Americans who are half billionaires and 153 who have a net worth of more than \$100 million

The Fortune article estimates Getty's visible assets at \$957,404,289 conservatively and \$1,338,417,316 liberally.

It estimates Hughes' wealth \$985,500,000 conservatively and \$1,373,000,000 liberally.

Fortune says that a similar survey it made in 1957 estimated Getty's wealth between \$700 million and \$1 billion, and Hughes' wealth between \$200 million and \$400 million.

Plan 60-Day Stay On Sea Floor

VALLEY FORGE, Pa. (AP) - Four U.S. scientists will spend 60 days on the ocean floor early next year in the longest continuous undersea study a diving team has attempted.

The Navy, the National Aeronautics and Space Administration and the Interior Department, in announcing the program today, said a twin-chambered living quarters built by General Electric will be sunk 50 feet in Greater Lameshur Bay, Virgin Islands National Park, off St. John Island. GE is also handling the planning and train-

The agencies said the study, called Operation Tektite I, has two purposes-to conduct extensive marine science studies on the ocean floor and to study the behavior of men living in relative isolation in a strange invironment under stress. The data may be useful to help plan future space trips, they said.

The four Interior Department scientists who will make the dive will be named at a later date. They'll have voice communication with the surface, and a special mix of oxygen and nitrogen will be pumped to them. Food will be stored in the living quarter tanks before they are sunk. The men will be able to swim outside the living quar-

Suzanne Hockers Wed To Peter J. Jacobsen

Miss Suzanne Marie Hockers of DePere, Wis., became the bride of Peter J. Jacobsen of Fayette during a ceremony performed April 6 at St. Mary's Church in DePere.

The Rev. Raymond Heitpas officiated at the nuptials. The bride is the daughter of Mr. and Mrs. Sylvester Hockers of Scray's Hill, DePere and the bridegroom is the son of the Henry Jacobsens of Fayette. Brocade Taffeta

The bride, given in marriage by her father, wore a floor length gown of white brocaded taffeta fashioned with a high scoop neckline, and long tapered sleeves. The gown was created by the bride.

A crown of crystals and pearls held her elbow length veil of illusion and she carried a bouquet of white carnations and red roses.

Escanaba Ore Terminal Starred In NW Report

ern Railway, Escanaba's senior industry, makes its Escanaba Ore Terminal plans a bright spot in an annual report which rates 1967 a disappointing year.

The annual statement of the railroad issued by Board Chairman Ben Heineman and President Larry Provo reports that operations brought in a consolidated net income of \$14.5 million compared with \$29.9 million in 1966.

The North Western, trying to diversify industrially in an economy in which railroads are having an increasingly hard time to make money, reported that diversification into the chemical industry had been good and not-so-good.

Its Velsicol Chemical Corp. increased its sales and income, its Michigan Chemical Co. slipped. Their combined income was \$14.8 million, down from

research being done on raising stripers," Durling added.

The reason Michigan decided on a Coho salmon program, he explained, is because the art of cultivating Cohos is considerably advanced over the success with stripers.

He said he found out from the trip that, for the first time, one of the federal hatcheries, at Edenton, N. C., has had mod-

Dr. William Butt, academic dean of Bay de Community College, will perform as a literary speaker for the Michigan State Council of the Arts at Jackson Community College, Jackson, Thursday.

The Council of the Arts selected Dr. Butt as one of the leading literary figures in the state for their touring attractions program.

Dr. Butt's appearance will be his 128th performance for the Council of a program entitled "The Best of Benchley." Robert Benchley was a writer and noted actor-humorist of

Census Bureau Chided By Ruppe

WASHINGTON, D. C. - Congressman Phil Ruppe (R-Mich) in a tongue-in-check letter to the director of the Bureau of the Census criticized that organization for an "expensive publication" containing maps that do not include the Upper Peninsula of Michigan

"Recently," Ruppe wrote, "I had an opportunity to review your publication, "200 Million Americans". "Careful reading reveals that you have either made a serious error or you should rename the booklet, "199-700,000 Americans". In your maps of the United States, you have eliminated the Upper Peninsula of Michigan and sunk 300,000 loyal citizens, whom I represent in Congress, into the Great Lakes."

Deer Committee To Meet June 8

The final meeting of the Citizens Advisory Committee on Deer for the Escanaba District (Marquette, Delta and West Alger counties) will be held at the State Office Building at 10 a.m. CDS Time, Saturday, June 8.

The agenda calls for a review of the 1967 hunt, the proposed harvest in the 1968 deer season in the district, and vote on recommendatons to the Conservation Dapartment.

Romney Probes Race Problem

LANSING (AP)-Gov. George Romney is springing surprise visits on Michigan cities these days to find out what their racial problems are and how they are trying to solve them.

"I want to see what can be done with existing tools," is the answer the governor gives when local newsmen discover him in their bailiwicks.

Romney aides, who are reluctant to discuss the visits at all, say he has stopped at six cities so far and may well drop in on others within the next few

They describe the program as similar to Romney's national urban tour, made last September before the governor withdrew as a presidential candidate, and to New York Mayor John Lindsay's walks through Harlem and other areas of potential racial trouble.
